ITEM 1 – Questions, Comments and Requests for Clarification received from Bidders

Question: Is Striping to be included in the price of mix for this project? Or will striping be completed under another contract? Because there is not a line items number for Striping on the bid form.

Answer: The contract should be bid without striping; however striping work may be negotiated with the low bidder.

It is expected that all bidders read the contract document and specifications prior to submitting their bid. The information provided in this addendum along with the contract document and specifications provides each potential bidder the same information to submit their bid.
