

**ADDENDUM NUMBER ONE
FOR RFQ 134280**

DATE: June 7, 2013

TO: ALL BIDDERS OF RECORD

BID FOR: THREE (3) CLASS A FIRE PUMPERS NFPA APPROVED

This addendum forms a part of and modifies the bid specifications for the above item currently scheduled to open July 9, 2013 at 2:00 p.m. (local time) at the City of Oak Ridge, Central Services Complex, 100 Woodbury Lane, Oak Ridge, Tennessee.

ITEM 1 – Bid Date

The bid date originally scheduled for Tuesday, July 9, 2013 at 2:00 p.m. (local time) has been changed to Wednesday, July 10, 2013, at 2:00 p.m. (local time).

REQUISITION 134280

Page 1 – change date after Requested from 07/09/13 to 07/10/13

Page 1 – change date under Req. Dt from 07/09/13 to 07/10/13

Page 2, First Paragraph - Change the date in the sentence “Sealed bids are due July 9, 2013 at 2:00 p.m. (local time)” to **July 10, 2013**.

Page 2, Third Paragraph, last sentence - - Change the date in the sentence “Sealed Bid for RFQ 134280 to be opened July 9, 2013 at 2:00 pm” to **July 10, 2013**.

ITEM 2 – Questions, Comments and Requests for Clarification received from Potential Bidders

1. Question: I did not see any trips listed in the specs. Does the Fire Department want trips included in the price? If so, how many trips and for how many people per trip?

Answer: Mid- build and final inspection for 4 (four) people. Two trips for 4 (four) people. The pre-construction meeting will be in Oak Ridge. The vendor can travel to The City of Oak Ridge, unless the vendor believes the preconstruction meeting should be at their plant. The third trip for pre-construction will be the decision of the vendor.

2. **Question:** The specifications list an item that I cannot provide as a “No Exception”.

Page 38-

ENHANCED FRONT SUSPENSION SYSTEM

The front suspension will have the handling, stability, and ride quality enhanced by the use of a Ride Tech auxiliary spring system and Koni high performance shock absorbers. This system will utilize three stage, urethane auxiliary springs, and high performance gas filled shock absorbers to control the deflection of the leaf springs, and dampen vibration normally transmitted to the chassis. This maintenance free system will be custom tuned to the apparatus gross weight rating for maximum performance, while maintaining a soft compliant ride. **NO EXCEPTIONS.**

A (3) three year 36,000 mile warranty will be provided by the manufacturer.

I have spoken with my engineers and the TAK-4 independent front suspension we provide is superior to this system. Will this be acceptable?

Answer: The “**NO EXCEPTIONS**” referenced above in Bid Specifications Page 38 **ENHANCED FRONT SUSPENSION SYSTEM, second paragraph, last sentence** is to be removed entirely. Vendors are asked to note exceptions with their bid.

It is expected that all bidders read the requisition and specifications prior to submitting their bid. The information provided in this addendum along with the requisition and specifications provides each potential bidder the same information to submit their bid.
